Accenture Federal Technology Vision 2020: Five Trends Defining Post-Digital Government

Since 2001, the Accenture Technology Vision has provided an annual glimpse into the most important trends impacting business, government and society over the next three years. The Accenture Federal Technology Vision 2020 discusses how this year's global trends will impact the U.S. federal government and specific agencies.

This year's five trends are:

The I in Experience

Enabling individual control over the experience

AI and Me

Unlock AI's full potential through human-machine collaboration

The Dilemma of Smart Things

Avoid the perils of the "beta burden"

Robots in the Wild

Viewing robots through a mission lens

Innovation DNA

Thriving in an era of continuous change and advancement

Visit www.accenture.com/fedtechvision2020 to explore now.

Sponsor: Amazon Web Services (AWS)

<https://aws.amazon.com/federal/>

The AWS Cloud provides secure, scalable, and cost-efficient solutions to support the unique requirements and missions of the U.S. federal government. Our cloud services can be employed to meet mandates, reduce costs, drive efficiencies, and increase innovation across civilian agencies, the intelligence community, and the Department of Defense. Cloud computing offers a pay-as-you-go model, delivering access to up-to-date technology resources that are managed by experts. Access AWS services over the internet, with no upfront costs (no capital investment), and pay only for the computing resources that you use, as your needs scale.

Sponsor: DataRobot

DataRobot

www.datarobot.com/public-sector

DataRobot is the leader in enterprise AI, delivering trusted AI technology and ROI enablement services to global enterprises. **DataRobot's enterprise AI platform democratizes data science with end-to-end automation for building, deploying, and managing machine learning models.** This platform maximizes value to the mission by delivering AI at scale and continuously optimizing performance over time. The company's proven combination of cutting edge software and world-class AI implementation, training, and support services, empowers any government organization – regardless of size or resources – to drive better mission outcomes with AI.

Sponsor: Micro Focus Government Solutions (MFGS)

www.mfgsinc.com

MFGS, Inc. is the exclusive master supplier for Micro Focus U.S. Government Solutions. At MFGS, Inc., we are committed to serving your agency or organization leveraging Micro Focus' best in class portfolio of enterprise-grade scalable solutions to solve mission-critical IT challenges. We place our customers' missions at the center of how we fulfill, support, and deliver software solutions in a government compliant manner that our customers can rely on and our teams can be proud of.

Microsoft AI is delivering real value to **government**

From modernizing your workforce to always being in sync with your citizens via anytime access to key services, Microsoft AI furthers your government innovation while creating sustained societal impact—and helps you push the boundaries of what's possible.

www.microsoft.com/government

www.microsoft.com/ai

Deliver cost-effective, efficient services, and improve mission outcomes

Harness the power of the cloud to address some of our most complex challenges in innovative new ways

Better engage and connect with citizens, such as chat-bots that enable 24/7 access.

Provide excellent services while retaining public trust via public-private collaboration

Sponsor: MTX Group Inc

<https://www.mtxb2b.com/>

MTX is a global implementation partner enabling organizations to become fit enterprises. MTX provides expertise across various platforms and technologies, including Google Cloud, Salesforce, artificial intelligence/machine learning, data integration, analytics, and mobile technology. MTX's very own Artificial Intelligence platform Maverick enables clients to accelerate processes and critical decisions by leveraging a Cognitive Decision Engine, a collection of purpose-built Artificial Neural Networks designed to leverage the power of Machine Learning. The Maverick Platform includes Smart Asset Detection and Monitoring, Chatbot Services, Document Verification, to name a few.

Partner: ATARC

<https://atarc.org/>

The Advanced Technology Academic Research Center (ATARC) is a 501(c)(3) non-profit organization that provides a collaborative forum for government, academia and industry to resolve emerging technology challenges. ATARC also introduces innovative technology from academic research labs to the Federal government and private industry. They have an AI Working group that is free for government employees to join. Reach out to them if you're interested in learning more and joining.
