Our Sponsors, Supporters, and Partners

Applied Intelligence, Federal Insights

Applying Analytics, AI & Automation at Scale in the Federal Enterprise

Visit www.accenture.com/federalai to explore our latest research:

Sponsor: Amazon Web Services (AWS)

<https://aws.amazon.com/federal/>

The AWS Cloud provides secure, scalable, and cost-efficient solutions to support the unique requirements and missions of the U.S. federal government. Our cloud services can be employed to meet mandates, reduce costs, drive efficiencies, and increase innovation across civilian agencies, the intelligence community, and the Department of Defense. Cloud computing offers a pay-as-you-go model, delivering access to up-to-date technology resources that are managed by experts. Access AWS services over the internet, with no upfront costs (no capital investment), and pay only for the computing resources that you use, as your needs scale.

Sponsor: Blue Prism

<https://www.blueprism.com/>

Blue Prism is True enterprise-grade Intelligent Automation from the inventors of RPA. It's available on-premises, in the cloud, as a hybrid, or as an integrated SaaS solution.

Sponsor: Cognilytica

<https://www.cognilytica.com/>

Cognilytica is an AI focused research, advisory, and education firm. We produce and host the popular AI Today podcast and coordinate the monthly AI in Government event. We also regularly write for Forbes and TechTarget.

Sponsor: Coursera

<https://www.coursera.org/government>

Coursera is Making the Government AI-Ready Workforce a Reality.

*Through world-class training and development programs, developed by top universities and companies, governments are leveraging Coursera's platform to scalably upskill and reskill their **workforce talent**. Only through effective skills transformation can governments truly democratize AI across their teams, build and strengthen an AI culture; and encourage ethical, trustworthy and collaborative AI innovation to drive missions forward.*

Sponsor: DataRobot

DataRobot

www.datarobot.com/public-sector

DataRobot is the leader in enterprise AI, delivering trusted AI technology and ROI enablement services to global enterprises. **DataRobot's enterprise AI platform democratizes data science with end-to-end automation for building, deploying, and managing machine learning models.** This platform maximizes value to the mission by delivering AI at scale and continuously optimizing performance over time. The company's proven combination of cutting edge software and world-class AI implementation, training, and support services, empowers any government organization – regardless of size or resources – to drive better mission outcomes with AI.

Sponsor: Micro Focus Government Solutions (MFGS)

www.mfgsinc.com

MFGS, Inc. is the exclusive master supplier for Micro Focus U.S. Government Solutions. At MFGS, Inc., we are committed to serving your agency or organization leveraging Micro Focus' best in class portfolio of enterprise-grade scalable solutions to solve mission-critical IT challenges. We place our customers' missions at the center of how we fulfill, support, and deliver software solutions in a government compliant manner that our customers can rely on and our teams can be proud of.

Microsoft AI is delivering real value to **government**

From modernizing your workforce to always being in sync with your citizens via anytime access to key services, Microsoft AI furthers your government innovation while creating sustained societal impact—and helps you push the boundaries of what's possible.

www.microsoft.com/government

www.microsoft.com/ai

Deliver cost-effective, efficient services, and improve mission outcomes

Harness the power of the cloud to address some of our most complex challenges in innovative new ways

Better engage and connect with citizens, such as chat-bots that enable 24/7 access.

Provide excellent services while retaining public trust via public-private collaboration

Sponsor: MTX Group Inc

<https://www.mtxb2b.com/>

MTX is a leading global technology company powered by the Maverick AI platform. MTX builds and implements technology solutions for government agencies, businesses, and institutions to serve their communities better. The company has completed hundreds of digital transformation projects and develops custom applications on platforms like Salesforce, Google Cloud, and AWS. MTX is known for its fearless speed and flexibility for its customers and its industry-leading culture that treats its more than 500 employees as family members. MTX is headquartered in Frisco, Texas, and has offices in New York, Hyderabad, Jaipur, Canada, and Australia.

Sponsor: Perkins Coie

PERKINS coie

<https://events.cognilytica.com/sponsor/perkins-coie/>

Perkins Coie is a leading international law firm that is known for providing high value, strategic solutions and extraordinary client service on matters vital to our clients' success. Perkins Coie is the “go-to” government contracts firm for a wide range of clients, from large multinational corporations to small businesses, and regularly counsels start-ups and established technology companies that provide innovative technology solutions to federal customers in all aspects of federal procurement law. Perkins Coie’s multi-disciplinary Artificial Intelligence team draws upon broad experience working with many of the world’s most innovative technology companies as they explore the ways in which AI can help meet their organizational goals. **The firm has extensive experience advising clients as they develop, test and launch AI and machine learning products and services,** and has advised them and provided regulatory assessments on a wide range of issues, including algorithmic bias, algorithmic collusion, biometrics, ADA accessibility and law enforcement access.

Partner: ATARC

<https://atarc.org/>

The Advanced Technology Academic Research Center (ATARC) is a 501(c)(3) non-profit organization that provides a collaborative forum for government, academia and industry to resolve emerging technology challenges. ATARC also introduces innovative technology from academic research labs to the Federal government and private industry. They have an AI Working group that is free for government employees to join. Reach out to them if you're interested in learning more and joining.
